THIS IS TUSCOLA

Karen,

I'm really glad that I met you in the 8th grade. We have been really good friends since then and I'm happy to have a friend like you! Remember all of the fun times we had at the pool, parties, and most of all getting those good-looking guys at the skating rink. You always got the best looking one. I'm glad we have geometry (ha!) together if it wasn't for you I would fail. I hope next year we will have alot of classes together. You should try out for cheerleader and if we were to both make it it would be lots of fun. Well I'll go for now. See ya alot this summer. Thanks for being my friend.

Love ya, Friends
Deb Forever!

VARSITY FOOTBALL

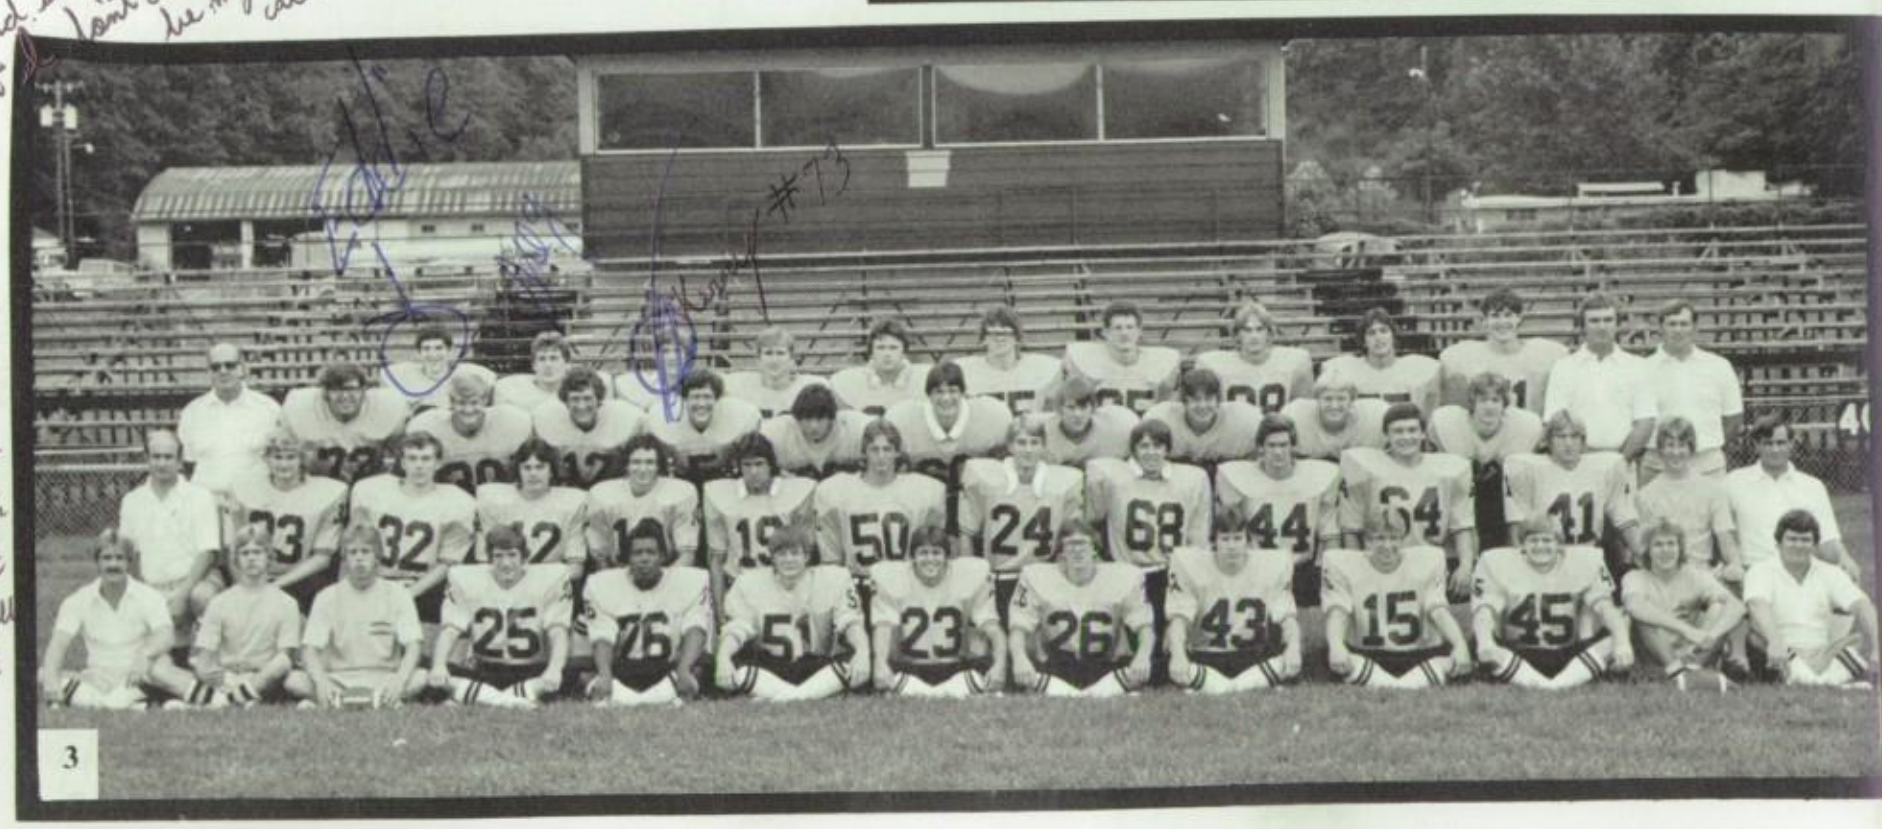

August 25 found the Mounties going out into their first game of the 1978 season without the services of ace quarterback Jeff Teague. Teague suffered a shoulder separation during practice, leaving sophomore Jim Darby to lead the Mountie attack. Darby led the Mounties offense to three touchdowns and a 21 to 20 victory over the Golden Eagles of Sylva-Webster.

A determined Mountie defense is also to be commended for their performance. The hustling defense boasted a fabulous goal line stand in the third quarter, and turned down Sylva's hopes of a comeback.

One week later, the Murphy Bulldogs invaded C. E. Weatherby Stadium for the Mounties first home contest of the season. The winning effort marked the comeback of senior quarterback Jeff Teague. Teague completed 5 of his 11 passes; the last of which was a 16-yarder to Johnny Aldridge for the game's winning touchdown.

The 1978 J.V. football season saw the mounties with a new head coach. Paul Santillo guided the Junior Mounties to a 3-3-1 record. The .500 record does not truly depict the potential of the J.V. squad. Other than a disappointing 10-0 loss in the season opener with Reynolds, the mounties didn't lose again by more than 2 points!

VARSITY BOYS' BASKETBALL TEAM

The 1978-79 varsity basketball season was a very successful one. Coach Pryor guided the young Mounties to an excellent 15-5 regular season record. The Mounties conference record of 10-4 was good enough for a 3rd place finish and a berth to the district playoffs. This year the Mounties proved that they are for real and since 3 lettermen will return next year, the future could very well hold the Mounties as the Big Mac powerhouse.

VARSITY GIRLS' BASKETBALL TEAM

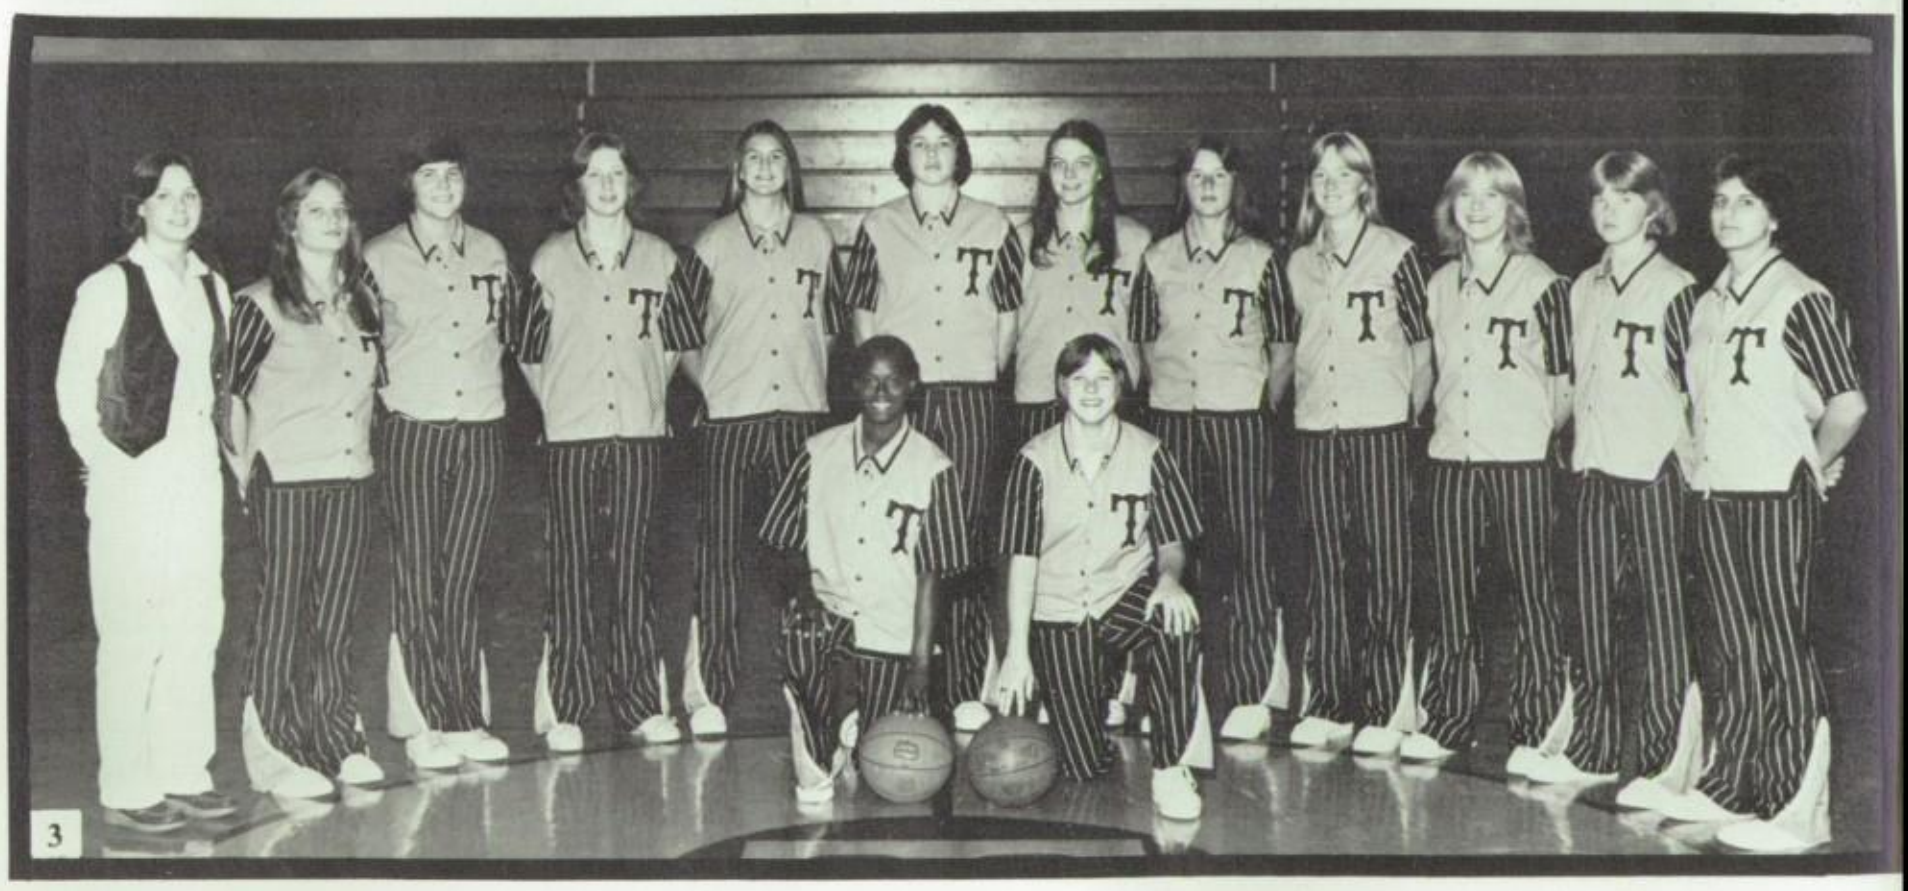

The 1978-79 Varsity girls basketball team can be very proud of their season this year. The girls were a much better team than their final record indicates. The Lady Mounties proved this by defeating the defending state champions Sugar Jets of Enka early in the season. The girls took several games down to the wire before finally falling by a single point. With a little luck the Lady Mounties could have easily found themselves in the district playoffs. Luck didn't prevail this year, but losing only one girl, the Lady Mounties are surely the team to win the Big Mac next year.

JV BOYS' BASKETBALL TEAM

Coach Larry Breece's Junior Varsity team had little luck this year as they dropped to a 6-14 season record. Though the boys had more of a cellar than stellar season, there were some bright spots. At times the team looked as tough as any J.V. team in the conference, but could seldom maintain that winning combination for an entire game. However poor the record, the team showed that they could play basketball and produce potential varsity stars.

The play-off bound Mounties were determined and loaded with Tuscola Pride. The proud young ladies fought hard to advance to the semifinals before finally falling victim to Harding High of Charlotte. This year's Homecoming festivities were highlighted by the crowning of Rhonda Jenkins as Homecoming Queen. As the band played "Come Sail Away", members of the court positioned themselves nervously for the all important announcement. Gerald Alex Price — October 6, 1961-March 29, 1979 (Age 17)
Son of Hollis and Hillis Price
Brother of Joyce Rasmus and Jeanette McKay, Uncle of Amy Rasmus
Hobbies: Hunting, Fishing, Camping, Mechanics and Pool

This is written in honor of and as a memorial to Gerald Alex Price, a student of the Class of 79 at Tuscola High School. Gerald loved his school, his teachers and his fellow classmates and would have been so proud to have graduated with them in May. However, as God would have it, Gerald departed this life on March 29, 1979 after a very brief illness.

Gerald was a sincere, kind and considerate person and was always concerned about his fellow man. He was the best son a parent could ask for, the very greatest brother and a very good friend. Gerald loved to laugh — not a loud laugh, but a soft, deep laugh which could be felt by those around. Gerald also loved to make others laugh with his witty remarks and jokes.

Gerald loved life so much and never failed to see the goodness, beauty, and happiness therein — the goodness felt from a prayer, the beauty seen in a dogwood's bloom and the happiness felt from a child's squeal of delight.

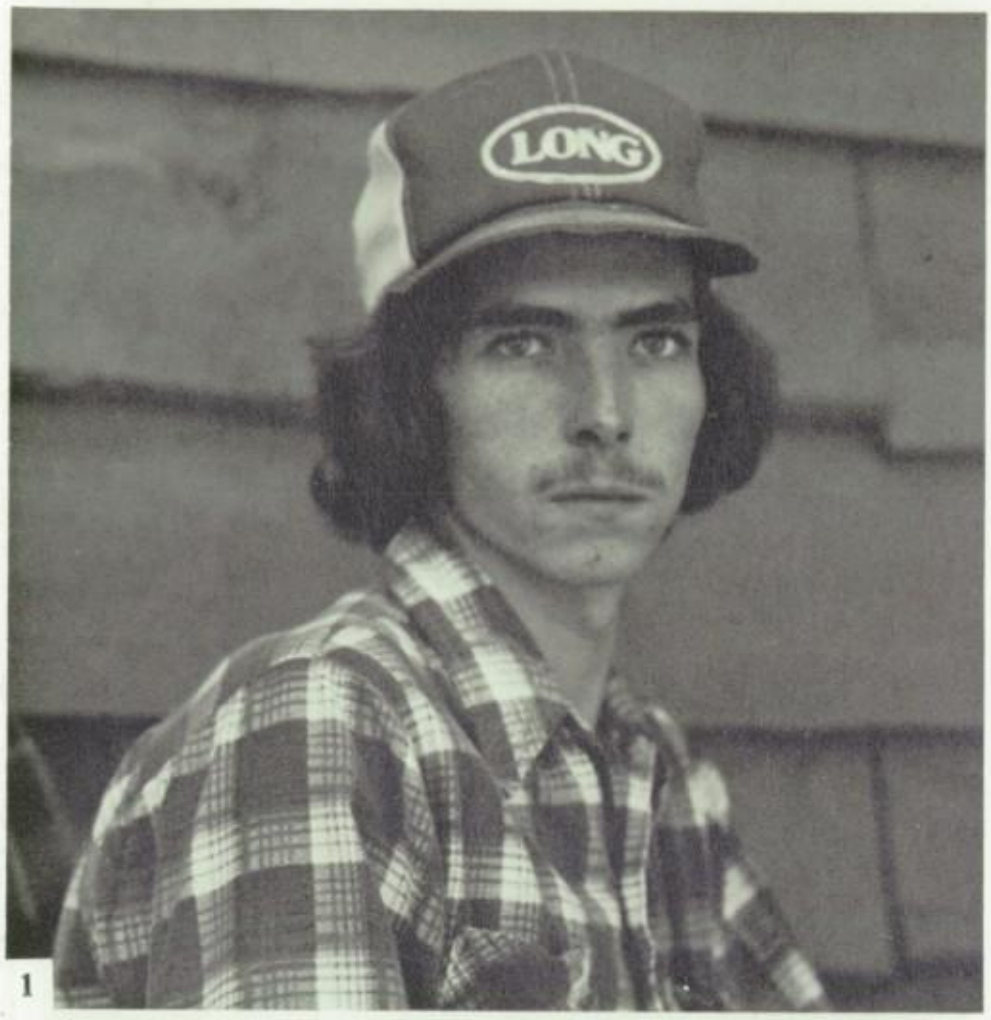

Gerald had an undying faith in God. In his last days, he at no time felt that God had forsaken him or left him and he at no time felt bitter nor questioned God. He at all times felt that God was his very closest friend and trusted fully in him until the end.

Gerald has left a loneliness in the hearts of all who loved him, but in place of this emptiness, he has left many good things — hope, kindness, faith, some very beautiful and precious memories and most of all, love. Gerald's life was short, but full of goodness. He departed this life having learned the ultimate secret of life — that it is more blessed to give than to receive for it is only in this giving that we are able to receive. We appreciate the life Gerald lived and for his having graciously given of himself to us.

IN MEMORY OF

GERALD PRICE

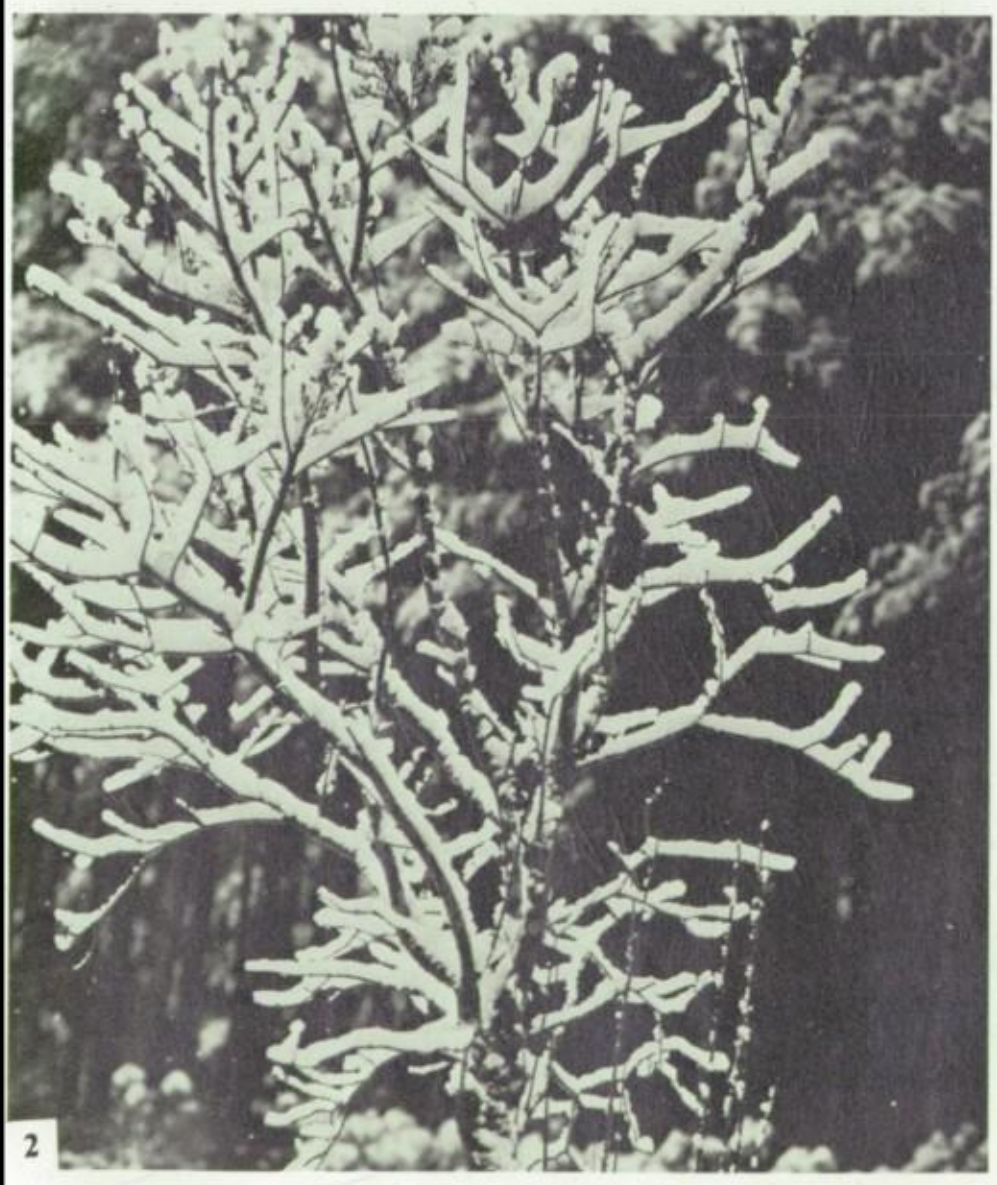

1

A PROFILE OF COURAGE

Faced with adversity in the form of incurable cancer, Gerald exhibited uncommon courage. Unwilling to sink into the quicksands of self-pity and defeat, he continued his senior year in the school's Homebound Program, harvested and sold his tobacco crop and even doctored a sick calf. Throughout his private battle, Gerald remained optimistic about returning to the regular classroom, especially to his favorite course in bricklaying. Meanwhile, he worked diligently at home on his academic subjects. Gerald subsequently completed shortly before his death all graduation requirements — a remarkable achievement under difficult conditions. Thus, while we mourn his passing, we revere his memory and his labors.

Horizon participated as waitresses and hostesses and sang in the Madrigal Dinner with Chamber Singers. The girls also attend various local competitions.

SUMMIT

Summit is a pop/rock group which consists of six couples. Tryouts are based on vocal ability, dependability and creativity and are required for admission. The group performs recent rock hits to their own choreography. Their backup consists of a drummer, two guitarists, a synthesizer and a pianist, who are also Tuscola students. The members design and build their own sets and have their own lighting and sound equipment.

TUSCOLA MOUNTAINEERS

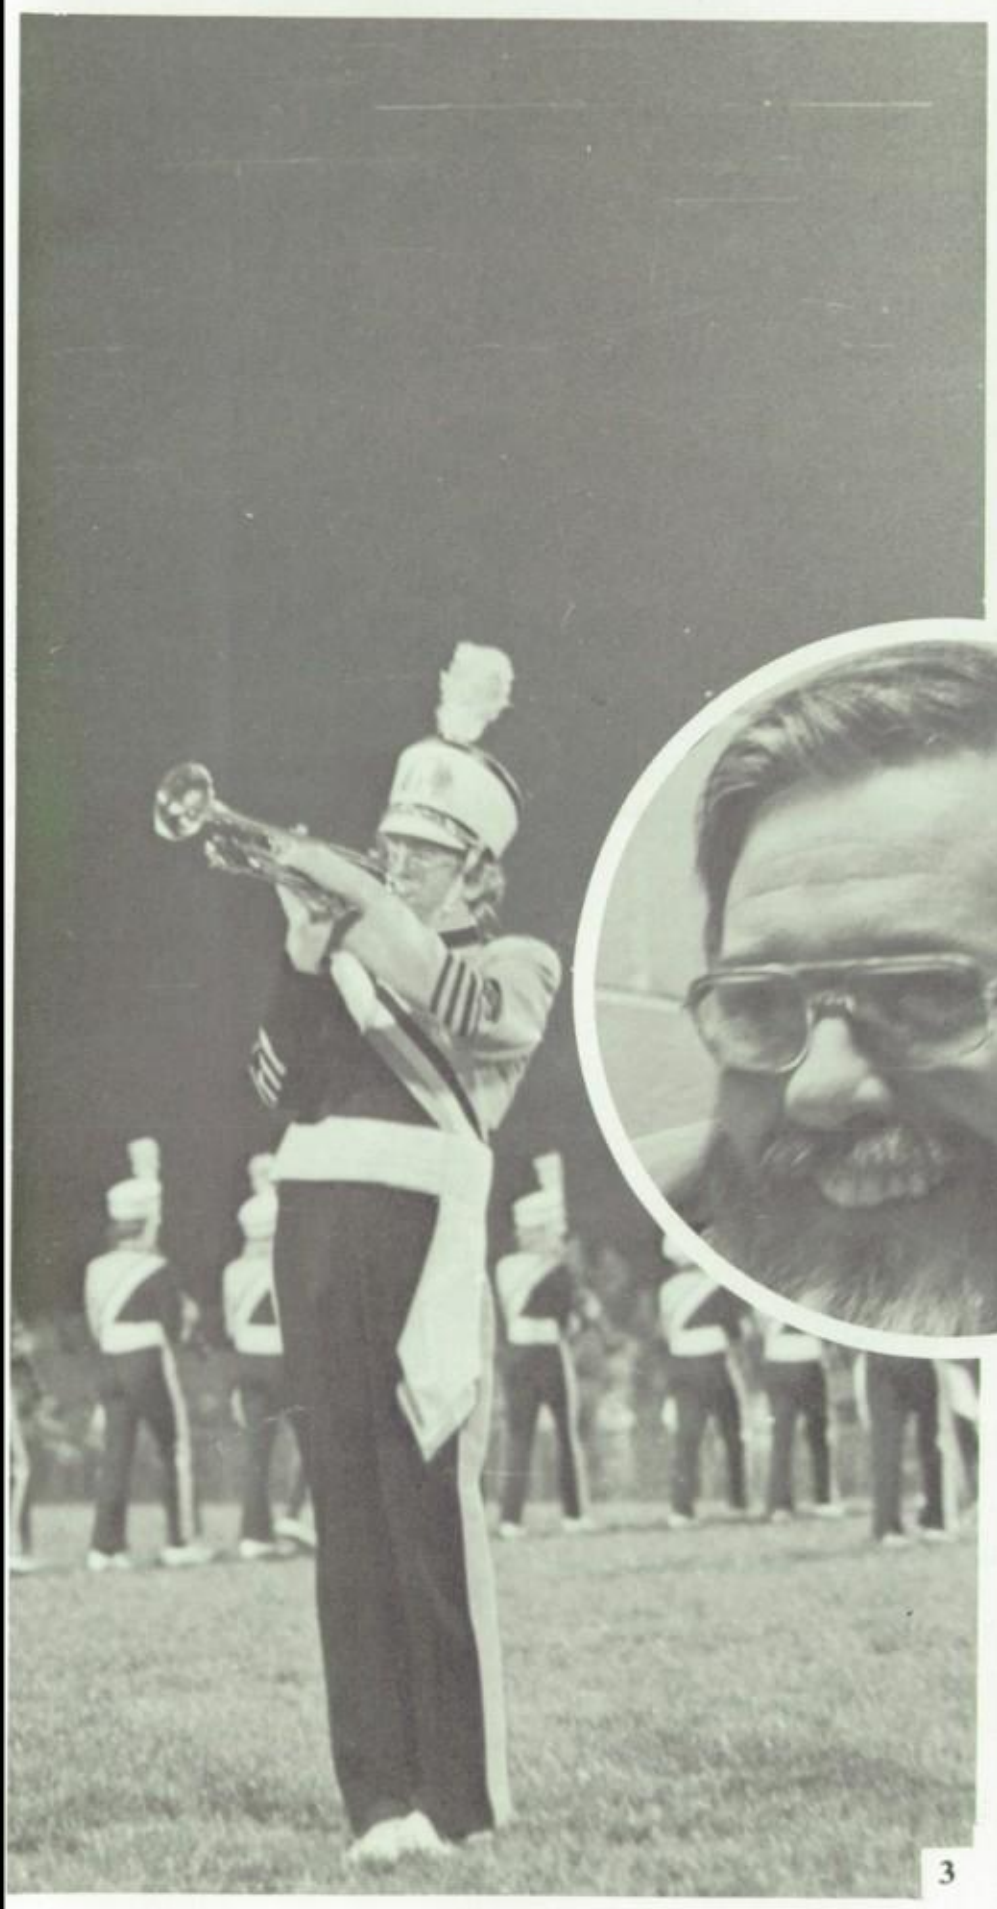

The Tuscola Marching Mountaineers had a highly successful year, resulting from an abundance of hard work, dedication, and blisters. It is a large band consisting of 147 members including 18 in the flag corps, 7 in the rifle corps and one majorette. Conducted by Bobby Farrow, the band attended three major competitions; Southeastern tournament of bands, Land of the Sky Band Festival, and WCU Marching Band Competition, receiving division 1 at all three.

BAND FRONT

Tuscola's Band front is not only necessary but adds great accent to the marching mountaineer's routine. Led by Bobby Farrow, the field conductor, it consisted of a majorette, Terri Branson, a rifle squad, and a terrific flag corps. All were rated superior for their fine show.

The Band seniors assumed leadership, as much as possible, starting in August during band camp. It was a hard task keeping sophomores and juniors in line but the seniors; well, what can I say? They're great!

Tuscola Band officers were elected at the beginning of the year. They provided excellent leadership for the entire band.

All-state band members, after participating in stiff competition before judges, were selected at Mars Hill College. They were selected for their playing ability and musical perception.

ACTIVITIES

They say that the average yearbook lasts fifty some years and that its owner peruses through it at intervals all his or her days. Knowing that, how do we fill this space with copy worth of such attention and such length of time? This was 1978-79, a very special year in many respects—a peace treaty between two traditional enemies, Egypt and Isreal, the tragic occurance at Jonestown, Guyana, etc. It was also the year that in Waynesville, N.C., sixteen students of Tuscola High School produced the yearbook which you now hold in your hands. Except to introduce them and recognize them for their special talents, what else can we say?

STUDENT COUNCIL

The Student Council is an organization made up of the students of Tuscola. The purpose of Student Council is to unite the students for the overall benefit of everyone who is concerned, which includes both the students and the faculty. When these two unite, like they do at Tuscola, you have a GREAT SCHOOL!

The Student Council is made up of the representatives, class officers, and student council officers of Tuscola. The representatives are elected by their own homeroom, the officers are elected by their own class, and the student council officers are elected by the Sophomores and Juniors.

This past year, the Student Council participated in a number of activities that helped Tuscola. They sponsored the Homecoming Dance, the Alumni Luncheon, and a BBQ dinner. They held a spirit competition between the classes (of course the Seniors did the best!) and benefitted by raising over $1,000 big ones for the March of Dimes!

interact

The Interact club was reorganized in 1976 after a period of inactivity. Since that time the members have accomplished a great deal, just to name off a few . . . they helped collect money for the Muscular Distrophy Tele-Thon on Labor Day and they worked very closely with the Salvation Army to restore toys and manning money pots at Christmas. Sponsored by Mr. Sessoms and the Waynesville Rotary Club the Interact has done a great job this past year.

The "Sub-Deb" club is a girl's club designed to help girls get to know one another. This year there were 36 full members in the club and it was the first time in three years that THS sponsored the club. Girls interested in joining "Sub-Deb" attended a meeting which gave the present members a chance to get acquainted with them and vote on members for the up-coming year. "Sub-Deb" had some special activities sponsored by Ms. Loftis which included making some Thanksgiving baskets, a Christmas dance for alumni, and Christmas for a needy family. Go for it . . . For thirteen years the Spanish club has provided interest and service to both Tuscola and the community. This year Spanish club members undertook programs and treats for special classes in elementary school at Christmas. This was in addition to their traditional programs and fruit baskets for the nursing homes. The members wish to create an interest in the Spanish-speaking people and learn more about their culture and customs.

Did you know that the greatest national sporting event in France is the "Tour de France", a bicycle race? Well, I'd be willing to bet the French club members knew that! Other than their regular old meetings, the French club also had special Christmas and Mardi Gras meetings, and their annual dinner in the spring. This year the French club plans to attend a Foreign Festival at Lenoir Rhyne College. Their goal is to create more understanding between American and French cultures.

Renamed "The Ridge Runner" in 1976, the Tuscola newspaper has become a financial success and is now working hard to be a success in regard to journalistic quality. Although entrance requirements generally have to go through Mr. Sessoms himself, once in a while guidance manages to slip one in on the side! The staff does not have any officers or editors so that just goes to prove that team work can go a long way.

Which club wants to promote the study of Roman life and their language and wish to make it more enjoyable? The Latin club of course! They were sponsored by one of the new teachers on the hill—Mr. Lodico. During the year, they had guest speakers and Roman-style parties. John Francis and Mr. Broyles designed a tomato stake puller for the productive tomato industry in Haywood County. John and Mr. Broyles entered the tomato stake puller in the James F. VICA Cosmetology was very successful this year! They won the gold award for service to the community, school, and club. They also won the Outstanding Club Organization Award from the Heart Fund. They had two very exceptional students; Diana Parris attended "National Washington Leadership Institute" and received the Statesman Award. She is also the Editor for N.C. VICA. The other student is Kathy Frady and she was the Editor for the District VIII. Just to name a few of the activities they were in . . . the Leadership Workshop, the Non-Elimination Contests, Marion Leadership & Skills Contest, State Leadership & Skills Contest, and National VICA week, February 13-19, 1979. These columns are a great asset towards the appearance of Tuscola High School Campus and they always will be! (As long as some people do not write dirty words on them.) The brickmasons also restored the wall at the A.M.E. church on Hillside Street in Waynesville. The members of Bricklaying will have competed in contests at W.C.U. Students are eligible for nomination to membership after the second quarter of attendance at THS if they have a 3.6 grade average. The Morehead Scholarship is an award given to outstanding students in the state of N.C. The award is worth $3000 per year. It is given only to students who are planning to go to UNC-CH. The selection process for this award is very difficult. Five students are chosen from Tuscola and five from Pisgah. The students chosen usually have a 3.3 grade average or better and over 1200 on the SAT. They also are generally leaders in the school and participate in some activity that involves physical vigor such as marching band, or a sport. At this point Malinda Messer and David Ratcliffe have been elected to interview in Asheville. Three years ago Joe Coates became a Morehead Scholar. It is an outstanding honor.

The Rotary Student of the Month is selected by the scholarship committee, which is composed of the guidance counselors and various teachers. The student is chosen for their character, grades, and their contributions to Tuscola. There are two Rotary students chosen in May to represent the vocational department and one Rotary student for each month. All Rotary students of the month attend a meeting at the end of the school year for a special dinner meeting in their honor.

NOW, there is a new and very visible club at Tuscola — the Jaycees. Once the exclusive domain of males, ages eighteen to thirty-two, the Jaycees at Tuscola became the first high school chapter in the nation and the first to admit boys and girls on an equal basis. Their accomplishments have been numerous and impressive. Through the sale of jelly, they collected a record amount of money for the National Burn Center. The money raising projects not only provide assistance to worthwhile projects, but help individual Jaycees find more meaning in their lives. For Tuscola High and for the Jaycees, 1979 was the beginning of a new ERA.

Advanced Media was a new club this year. The first quarter, the students in the course were given an intense training period in the course of media skills. These skills included everything from photography to puppetry to advanced library skills. The students became proficient in the required skills and were allowed to go, to the elementary schools as assistants to the librarians during the second quarter, or Advanced Media II. The Advanced Media students put on a puppet show to seven elementary schools in the "Reading is Fundamental" program. All the students in Advanced Media I, II, or III were responsible, dependable, and had good grades. All members have termed the program beneficial and fun.

Good teachers are remembered for the positive and lasting influence they have had on the character and intellectual growth of their students. That memory is carried with the students as they progress through life and regrettably does not become a lasting part of the school. The influence of Bill Kanos, however, will not only be carried by the students wherever they go, but will also become a permanent part of the school. He has taught them by example how to live a decent and honorable life; and in the classroom, as well as on the job site, has taught them how to work with wood. His influence, trasnmitted by himself and by all those he has touched will grace and beautify this campus and this community for a very long time. Surely, life could not offer much more. Proudly, we dedicate this 1979 Mountaineer to Bill Kanos.

Teng Hsiao-ping

Something of value for almost everyone except the Russians will come out of the nine-day visit to the U.S. by Communist China's Vice Premier, 74-year-old Teng Hsiano-ping. The Chinese leader's self-imposed task would be to serve as roving salesman — for his own country and for Carter's China Policy.

Judging by his past performances, the Chinese political dynamo will charm most American officials, business leaders, and others he meets as he visits Atlanta, Houston, and Seattle to examine harbors, factories, farms, aircraft plants, and oil-production and space facilities.

Teng, himself, won't be doing much bargaining with anyone, including President Carter. That task will be left to his subordinates and other official groups. But wherever he is, he will be studying America's weaknesses and strengths, Carter's leadership qualities, U.S. determination to help contain Russia's global ambitions and Washington's willingness to stay the course in Asia.

Americans, in turn, will be taking a long and hard look at the man who talks at great length at modernizing his nation by introducing business, bureaucratic and educational reforms that will change the face of China, and, at the same time, make it a sound partner for U.S. industry.

At this stage of history, relations with Moscow are incomparably more important to the U.S. than are its relations with Peking. Even Teng may be convinced of this by the time he returns home.

Wild Mustangs

Animals, in danger of extinction, such as the Euret, Sperm Whale, and the Bengal Tiger, are a major problem with the world and more are added to the list every year, but now comes another problem — too many Wild Mustangs — a lot of controversy and no definite answers.

In 1971 Congress passed the Wild, Free Roaming Horses and Burros Act, designating the horses as "Living symbols of the historic and pioneer spirit of the West", and specifying that they be protected from capture, branding, harrassment and death. To accomplish this, the horses were to be considered as a part of the natural system of the public lands where they were found.

But all of this does not stop the side controversy over the wild horses. The sheep and cattle ranchers insist on the removal of the horses either by slaughter or by people taking them into their homes. On the other hand, the naturalists and horse-lovers argue that the horses have a right to be free.

A program founded by the Bureau of Land Management, called "Adopt A Horse", seems to be the only answer to the problem of overpopulation and harrassment of the wild horses, at the present time, but even this does not stop the great dispute over the status of "America's Wild Horses". If the slaughter does not stop, there will be one more wild animal to add to the last of endangered species.

Behind the Mask of a Clown

Behind the masks of a clown, of public service, of fatherhood, was evidence of something terribly wrong with John Wayne Gacey Jr. — all ignored until skeletons were found in his home.

He was convicted of sodomy with a 16-year-old boy in 1968. He was accused of attempting to rape a teen-age boy in 1971 and of raping a 27-year-old Chicago man last March.

At least three times, parents gave Gacey's name in filing missing persons reports on their teenage sons. His former mother-in-law said she had complained to Gacey that his house smelled "like dead rats."

But until last Thursday — when the 36-year-old construction company owner reportedly confessed to sexually molesting and murdering 32 boys and young men — Gacey lived a prosperous, prestige-filled life with ambitions of running for office.

The Chicago Tribune reported in Thursday's editions that Cook County Medical Examiner Robert Stein and sheriff's investigators are using a map drawn by Gacey to locate the bodies. The map, a rough floor plan of the house reportedly drawn last Friday, indicated that 27 bodies are on Gacey's property, the Tribune said. Five other bodies were reportedly thrown in the river.

"So far, the map has been completely accurate," said one investigator quoted by The Tribune. "We have no doubt that we will find 27 bodies in the places he has shown us."

"He was very hard working and popular in his Community — always giving (block) parties and dressing up like a clown," said Robert F. Martwick, the Democrat township committeeman.

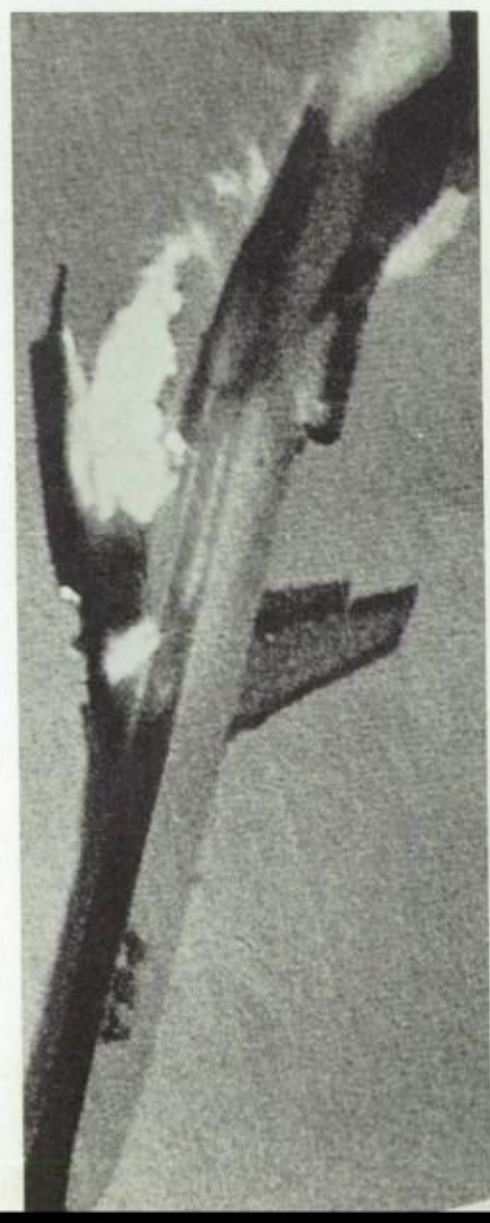

Martwick told Gacey that to run for office he should become "well known in the community, to help people out." As a part of that campaign, Gacey designed a clown outfit, had himself photographed in it, and entertained at parties and children's hospital wards.

When Gacey was sentenced to 10 years in prison on Dec. 3, 1958, the judge said: "Unsatisfactory in many respects as imprisonment is, at least that will insure for some period of time that you cannot seek out teenage boys to solicit them for immoral behavior of any kind."

If he had served the full term, Gacey would have left prison earlier this month. He was paroled.

"I Love You Mom . . ."

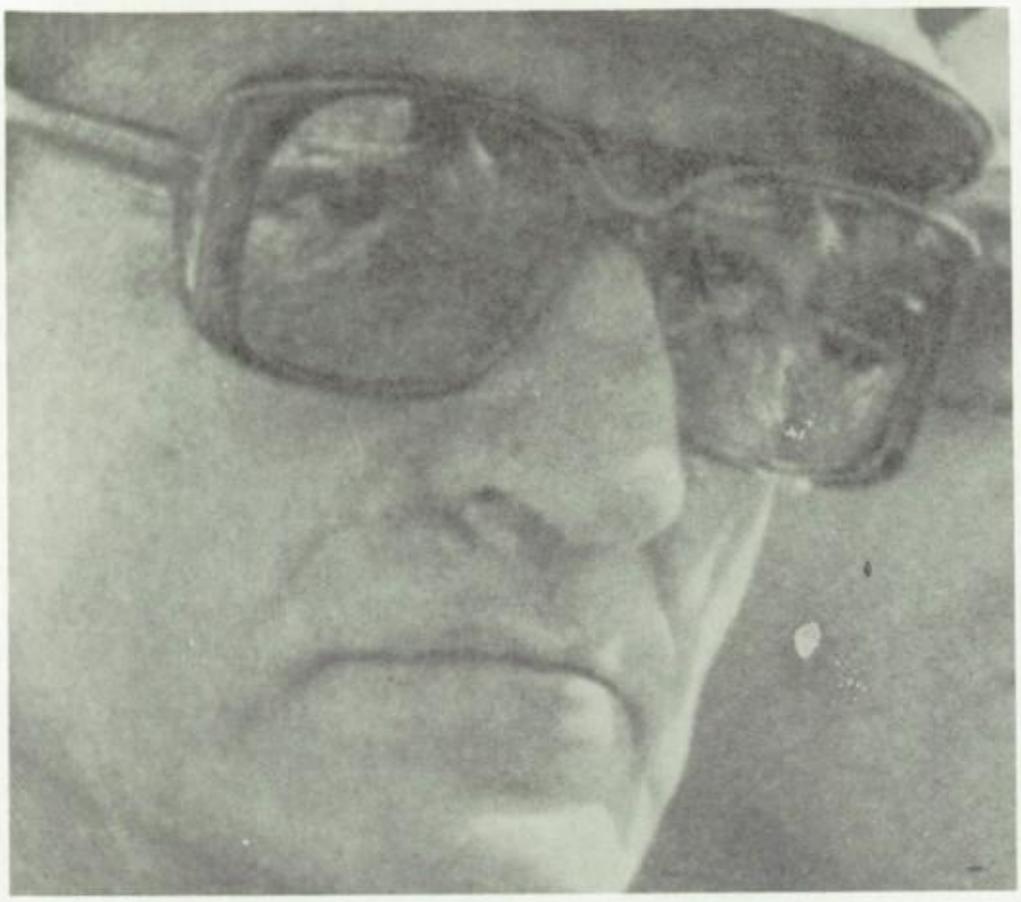

As a result of a mid-air collision of a Pacific Southwest Airlines jetliner and a single engine training plane, 150 persons lost their lives. The accident (September 25 over San Diego) caused more fatalities than any other such accident in U.S. aviation history.

The crash occurred as the Boeing 727 with 135 persons aboard was preparing to land at Lindbergh Field at about 9 a.m. in clear weather. The plane was on a flight from Sacramento and Los Angeles. The Cessna 172 with a student pilot and an instructor struck the right wing tip of the jet at approximately 3,000 feet.

The wing of the PSA plane burst into flame on impact and disintegrated as it fell uncontrollably downward. The Cessna dropped behind it. All persons in both planes were killed.

The other fatalities occurred as debris struck persons on the ground and destroyed or set fire to at least 16 houses. Thirteen persons were known to have died on the ground. An unidentified person uttered these last words from the PSA plane, "I Love You Mom."

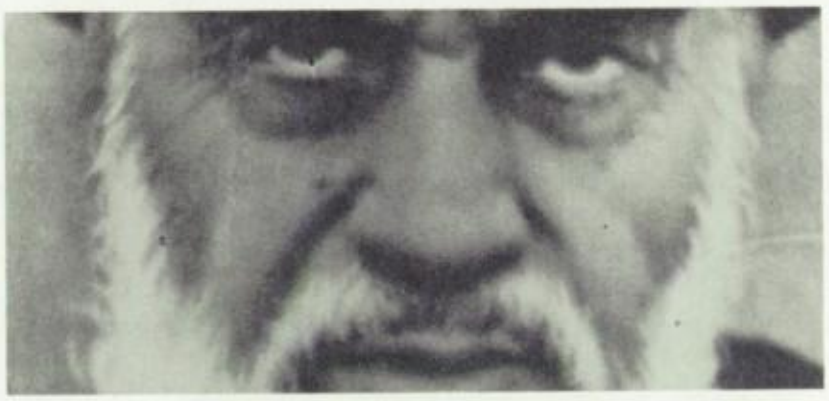

2500 yr. Monarchy comes to an End

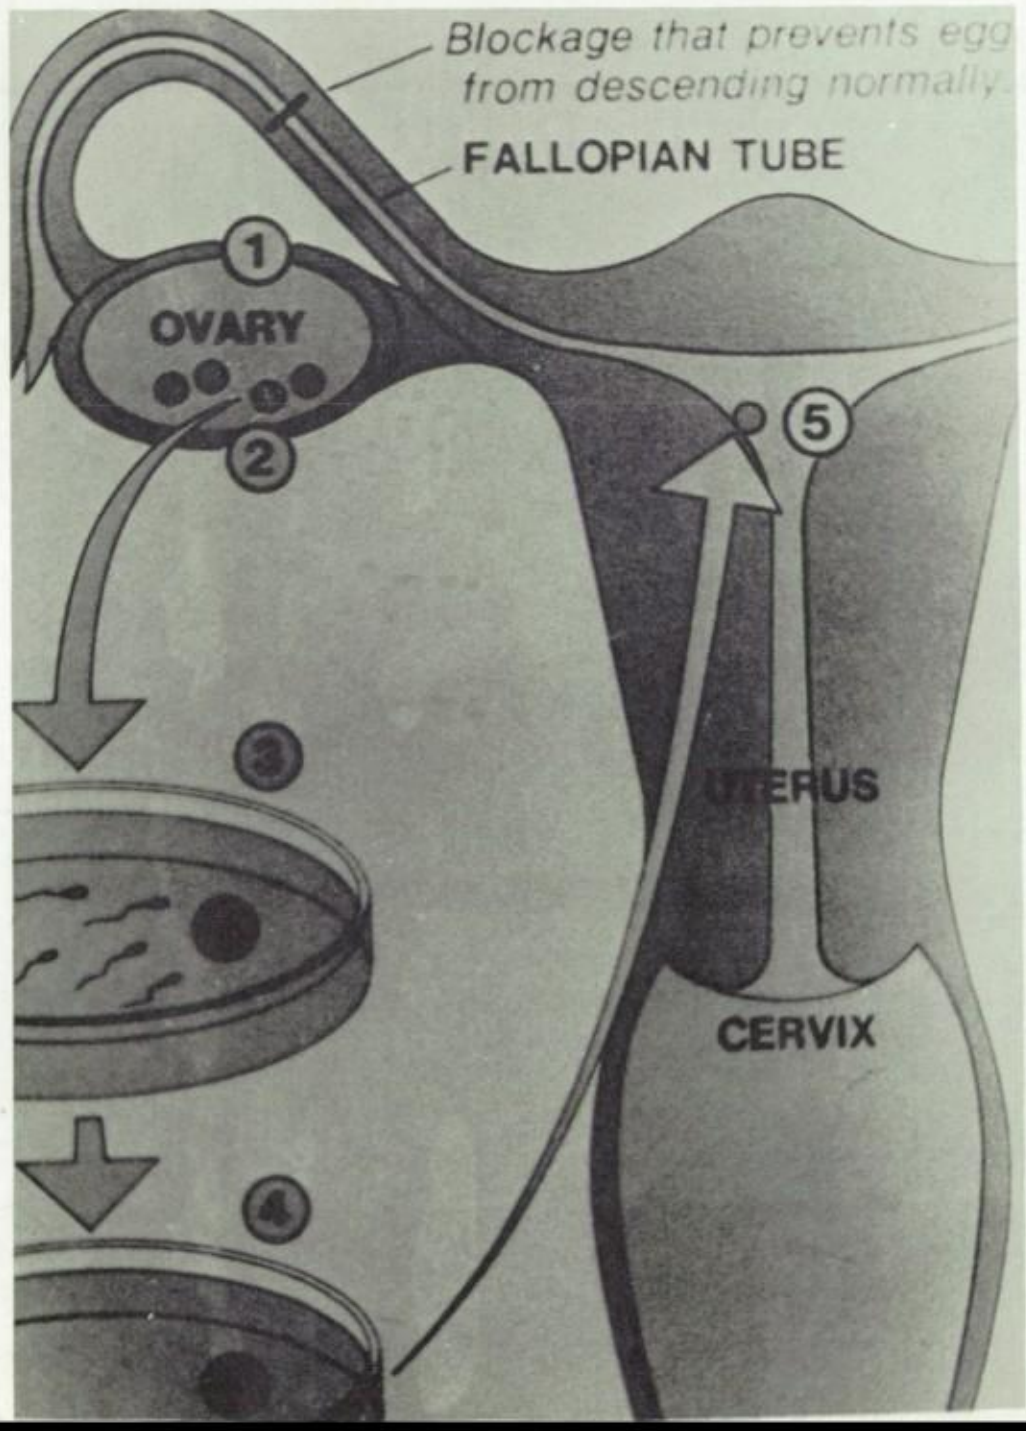

Demonstrators from all walks of life, led by the exiled Ayatollah Ruhollah Khomeini, transposed peaceful demonstrations into chaotic riots in spite of military resistance and eventually forced Shah Mohammed Reza Pahlavi — the Shah of Iran — to step down from his monarchy and thereafter leave the country.

Prime Minister Shahpour Baktiar, the Shah's "appointee," struggled for both popularity and credibility. But iron-willed and giving little hint of compromise, Khomeini rejected the Baktiar government and damned it as illegal because it was appointed by the Shah. Baktiar's open support of the Military was even more damaging to his public image led by generals fiercely loyal to the Shah and his government, the army stayed on the alert, attempting to intimidate the opponents of the monarchy.

The turning point came when Iran's military chief, General Abbas Gharabaghi, after meeting with Mehdi Bazargan, Khomeini's prime minister. Shah-appointed Prime Minister Baktiar resigned, as did the members of Parliament. The 2,500-year-old Iranian monarchy appeared to be at its close.

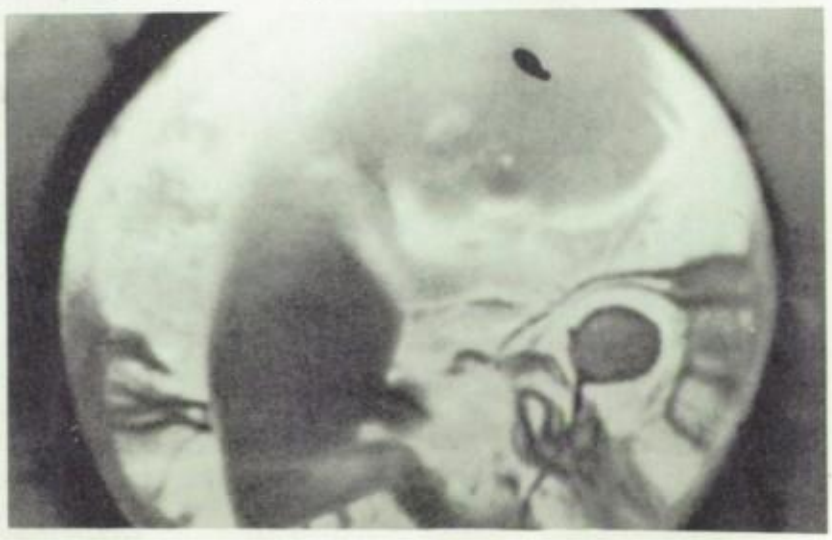

Test Tube Baby

Who would have ever imagined that Aldous Huxley's prophetic vision of conception outside the womb would became a reality? In July of 1978, Lesley Brown, of England, conceived the world's first "test-tube" baby.

Lesley Brown suffered a fallopian tube disorder preventing her of having children. Gynecologist, Dr. Patrick Steptoe began proceedings to make her dream of having a child come true. First, she was treated with hormones to stimulate maturation of eggs in the ovary. A needle was inserted into the ovary and eggs were withdrawn. Next, the doctor placed one of the eggs into a dish containing blood serum and nutrients to which sperm was added for fertilization. After the sperm penetrated the egg it was transferred to another dish for three to six days. The fertilized egg divided creating a cluster of cells called a blastocyst. This was placed in the uterus where it attached to the wall and normal embryo development proceeded for nine months. Finally, the baby was born and made the headlines. The world was astounded. The British Press read, "Our Miracle Baby," and "Baby of the Century."

Does this mean that Aldous Huxley's prophecy will come true? Will there be mass produced kids? Could this be "1984", six years early?

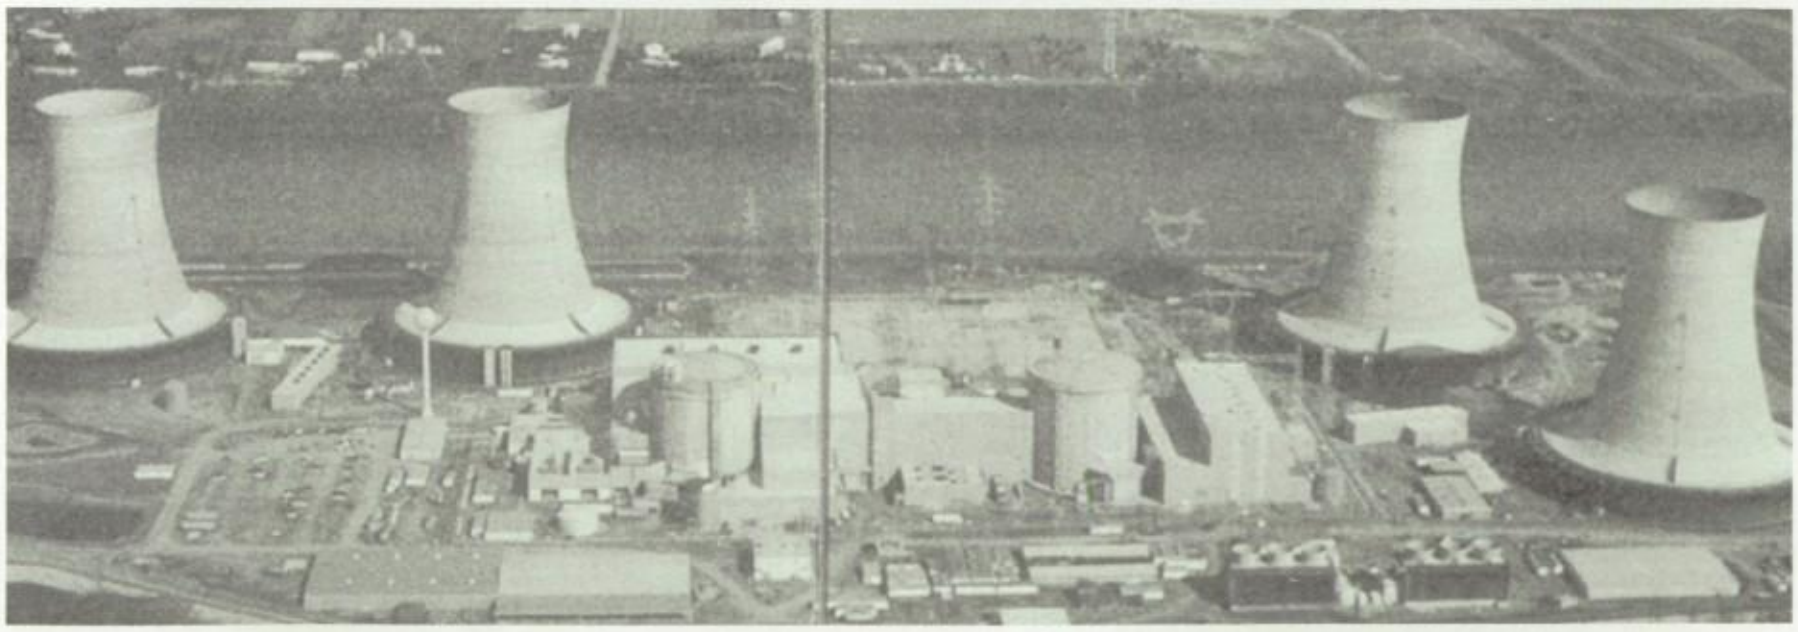

CHINESE INVASION OF VIETNAM

As if the world in general and Southeast Asia in particular had not had enough of war, in July of 1978, Vietnamese forces invaded and eventually conquered Cambodia. Then, early in 1979, Chinese forces reached down into Vietnam (In retaliation for the Vietnamese invasion of Cambodia) and soon opposing armies were punishing each other in bloody fashion. The United States, deeply mired by a war in Vietnam just six years earlier, called upon both sides to lay down their arms. The Soviet Union, meanwhile threatened vaguely to join its Vietnamese ally while the world stood on the brink of war.

Panic near Harrisburg

At the Three Mile Island power plant near Harrisburg, Pennsylvania, a nuclear reactor broke down, bringing panic and chaos to those within the vicinity. A valve malfunctioned causing the reactor to heat up and form a gas bubble which blocked the circulation of water essential to the plant's cooling system. The breakdown led to a serious leak of radioactive steam, spreading over an area of twenty miles from the plant.

Gas stations became crowded as approximately sixty thousand or more people packed and left their homes to a place of safety. Government officials advised pregnant women and pre-school children within a five mile radius to evacuate. Within a ten mile radius, everyone was advised to remain indoors.

No one was injured or seriously contaminated, but many people began protesting the use of any nuclear energy, while others left for their own protection.

As a result of this breakdown, the Oconee power plant in South Carolina, was shut down for an inspection of its Babcock and Wilcox safety equipment the same type of equipment which was at fault at Three Mile Island.

"D" Polish Pope

After many ballots the three puffs of black smoke arises out of the Vatican Palace. It had been once 50 hours and seven holy ballots before Pope John Paul II was chosen. As white smoke appeared the first non-Italian Pope was chosen. The 58 year old Pope stood before the pleased crowd and gave the first blessing. This will be a new beginning for the Catholics of the world. Pope John Paul promises to act in the style of the beloved Pope John XXIII, and to use his own self-reliance dealing with adversity.

People's Temple Mass Suicide

The tragedy occurred early in November. Members of the People's Temple, a religious group in Jonestown, Guyana, held their last communion.

Fanatic leader of the group, Reverend Jim Jones told all cult members that they must die in order to escape destruction from the outside world. Poison was sprayed into the mouths of the babies while older cult members were ordered to drink long draughts of strawberry-flavored Kool Aide laced with deadly cyanide and powerful tranquilizers.

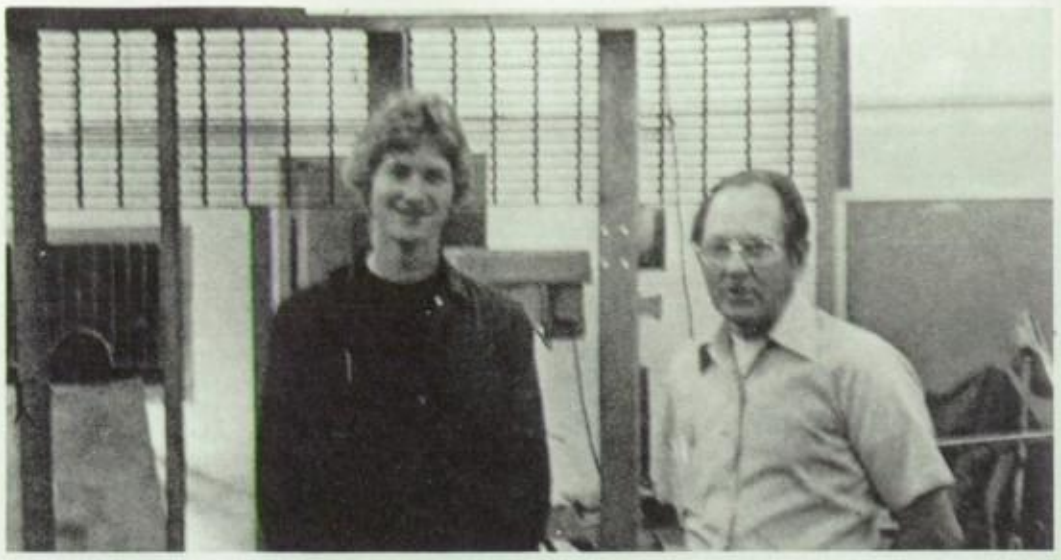

Thirty-two cult members escaped the suicide ceremony. The dead were removed later by U.S. troops and flown to Dover Air Base in Delaware for identification and preparation for burial.

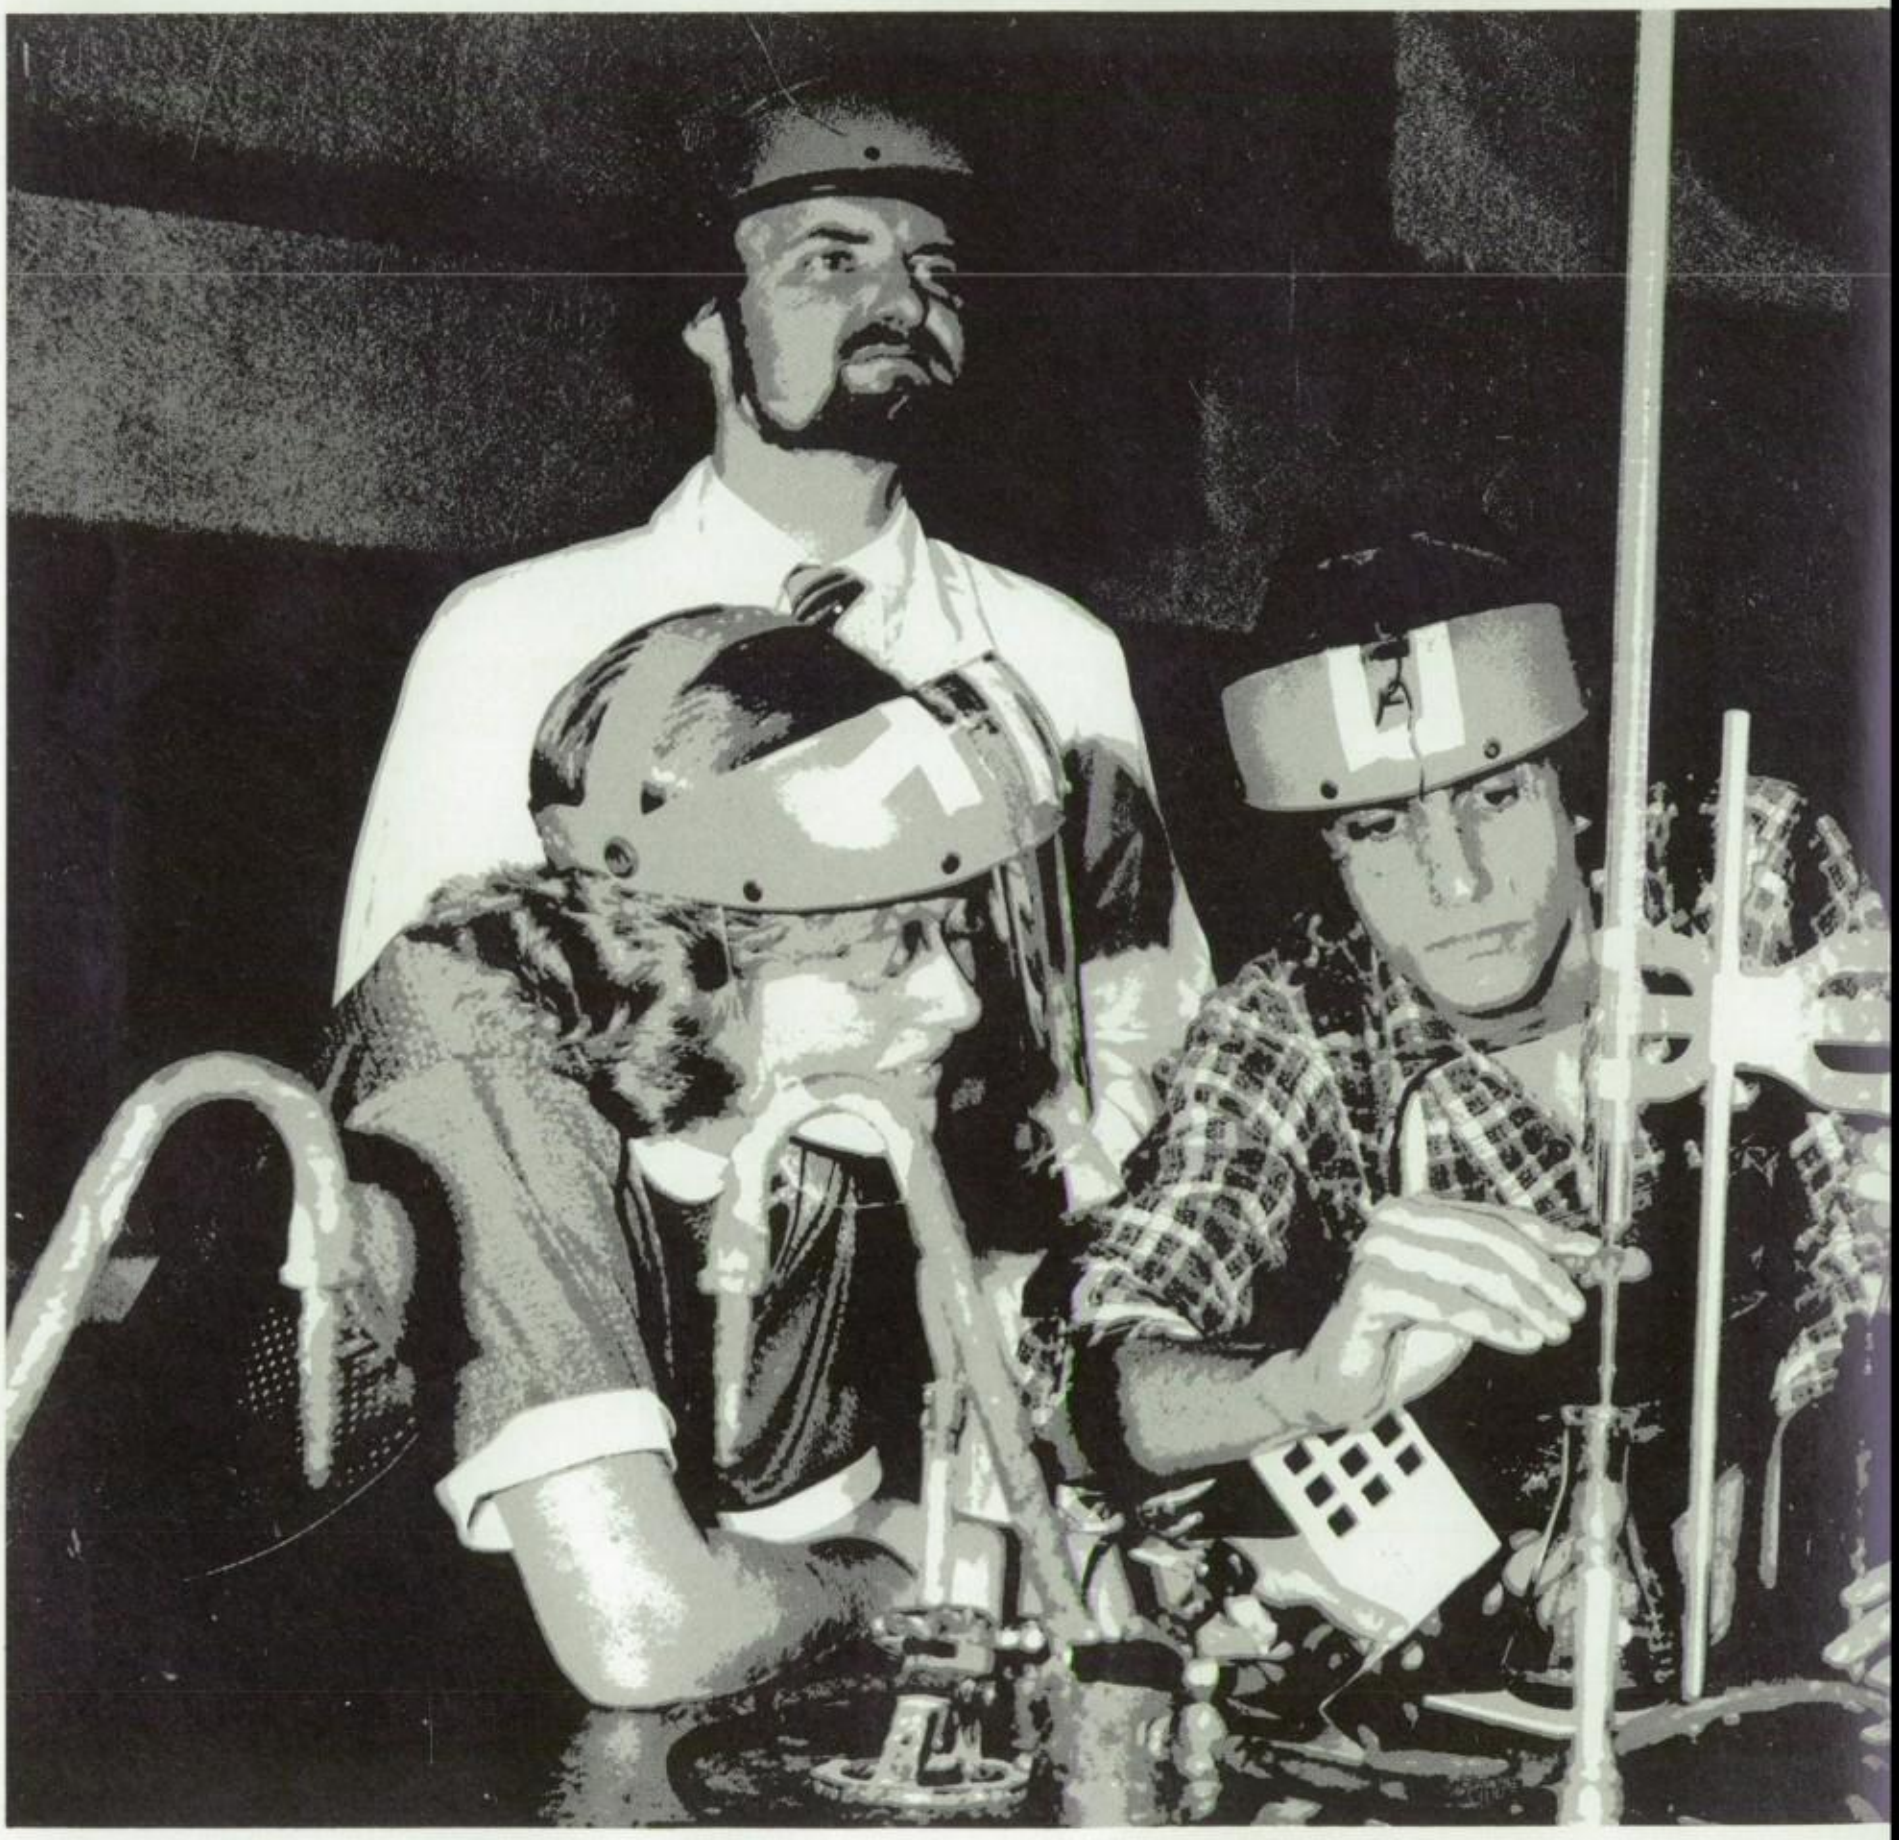

911 people died in one of the most bizarre suicide pacts in history.

ACADEMICS

Administration

Good Ole Mr. Starnes . . . He is always doing something. He peps the school up during the pep rallys and gets the cheers going. He is responsible for the whole organization of Tuscola High School and sixty or more teachers. He greets the school with a big "HELLO" on the morning announcements, and tells them "GOOD DAY" on the afternoon announcements. Where would we be without him?

"Students, let's get those parking stickers. We start parking in assigned spaces Monday." Mr. Marshall's famous last words. Our assistant principal is very devoted to his work, and he does his best for Tuscola's student body. If he wasn't here to take care of the minor problems that arise just think of how hazardous the school would be. Wild animals would be running around everywhere you could see.

Sharon Porter is another one of Tuscola's fine administrators. She is in charge of attendence and absentee records. She signs admit slips and makes sure the students are in the right place at the right time. Mrs. Porter also teaches a class. She is a very busy lady, and tries her best to keep Tuscola in proper order.

Tom Dowell tries to guide the students in the right direction for classes at Tuscola as well as in later life.

Karylle Harber guides students and suggests classes that are offered. She is especially busy during registration.

Gary Ore is the school psychologist. He comes everyday from eight-thirty until twelve. He is here to talk about any problem you may have.

Secretaries

Counselors

Betty McCall is the guidance secretary. She makes the appointments for students with the guidance. She also helps with the graduation material and class ring material.

Peggy Kimzey is Tuscola's Treasurer. She keeps all of the money straight for the whole school.

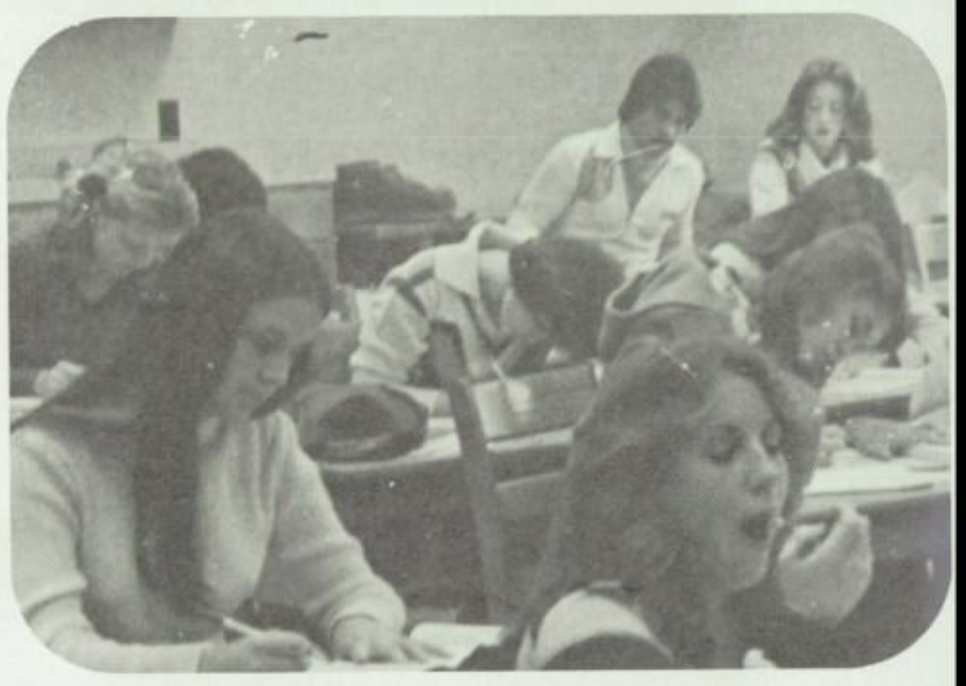

Francis Hannah does most of the typing in the office. She answers the phone and takes messages.

History

Walking down the hall in A Building you can hear everything from, "In what year was James Madison president?" to "Does anyone know how many pioneers went westward during the gold rush?" We have some very history oriented teachers in this department. You can grasp the real meaning of history of today and yesterday.

English

Wel we al hav fun en ingish clas. We lern how to Spel gud, an we lern how to Speek rite inglish an the techers ar reel gud techers, an the techers tech there studunts to rite gud stuf on papr an can't u tel how gud tha tech us?

The English department at Tuscola includes classes such as British Lit., Spanish, Am. Lit., and many other classes. It is a department that is fine and one to be proud of.

2+2=5 Tuscola's Math department has many fine teachers. Some teach basic math, some teach computer science, but no matter what math you may take, you will be sure to enjoy it. Math is required for two years. There is a wide selection from which you can choose. Most of them are year long courses. There is a math course for everyone, even you.

Math

Science

Mmmm . . . the smell of burning sulphur. Without this smell at least once a year, the science department would not be complete. This is one of the things happening in our science department. There are a variety of classes to take. But please be careful and don't mix the wrong chemicals or Tuscola would go up in smoke.

Vocation D

When you walk into D Building at Tuscola you encounter many different things. You can smell delectable food cooking in Foods classes. If you look into the art room you can see students covered in clay. As you walk toward the end of the hall you can hear sewing machines and typewriters. These are just a few of the things you can see, smell, and hear in these vocational classes. Tuscola holds a wide variety of these classes. You can take courses in shorthand, and accounting also. The teachers in this department are specialists in their fields, and do their best to instruct their students.

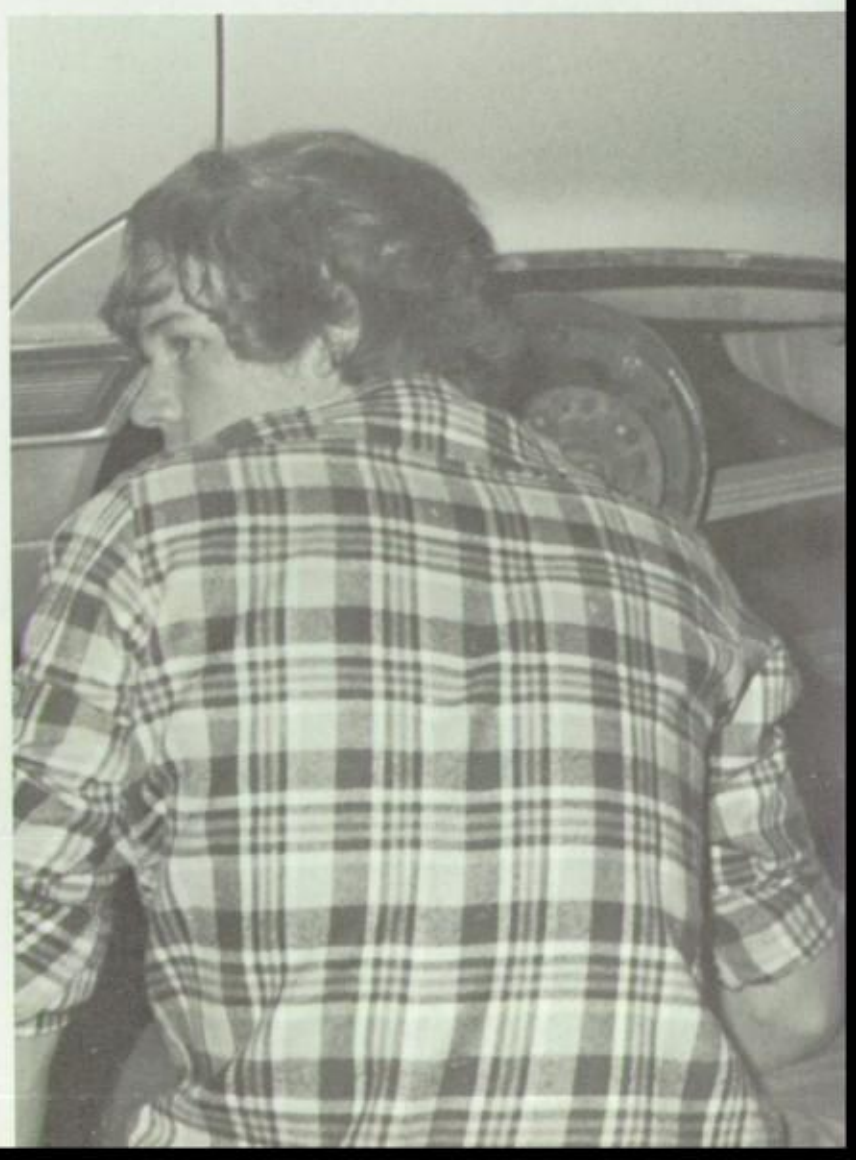

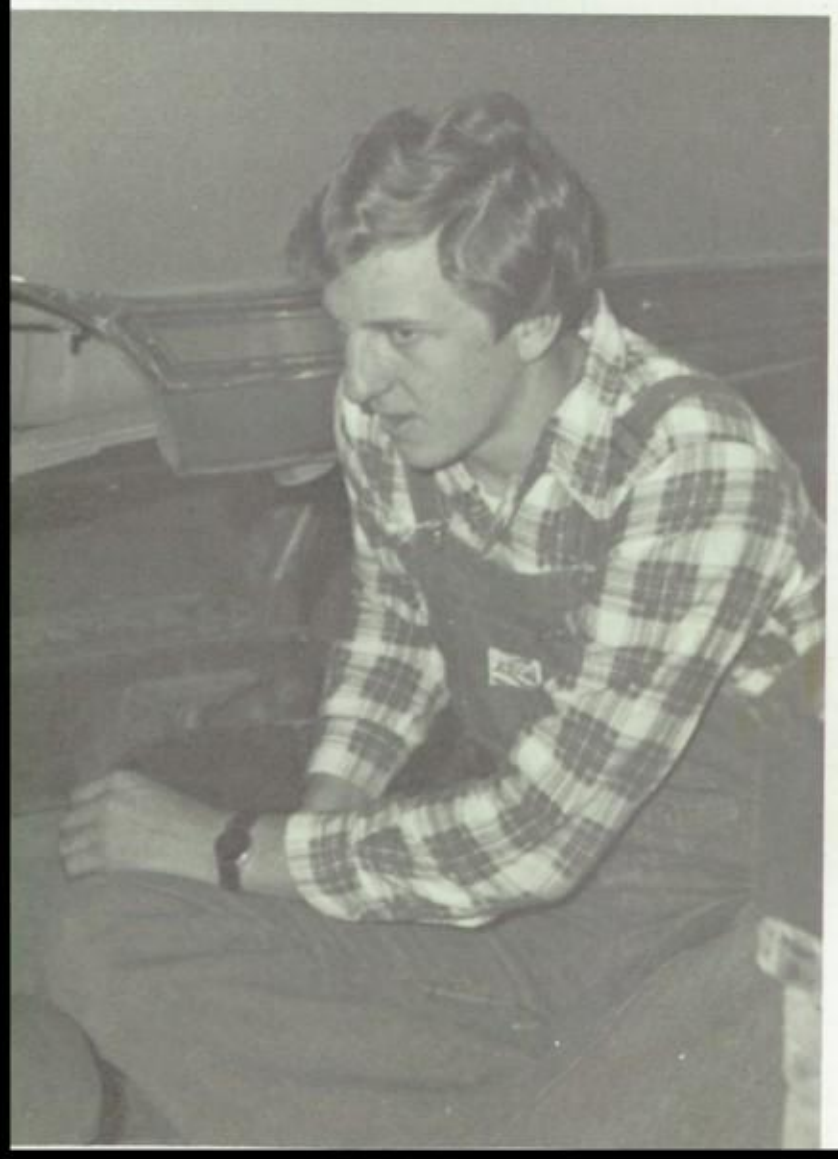

Vocation E

Tuscola has a fine department in E Building including classes in drafting, automotives, carpentry, agriculture, bricklaying, welding, electronics, and AF-JROTC. These classes train students that plan to enter into a professional trade. It gives a strong background to all these fields. The classes are well organized and have a lot of adequate equipment. The teachers instruct the students from the basic things up to very complicated proceedures. By the time a student graduates from Tuscola, he has a good background and is ready to persue these classes further in college or in a technical school.

Music

Tuscola's Music department is busy throughout the year. The chorus has some of the finest vocals in the state. We have four different groups. Horizon, Concert Choir, Chamber Singers, and Summit. They along with the Bands give numerous concerts during the school year. The bands at Tuscola, also four, have had a great season. They consist of Marching Band, Stage Band, Concert and Symphonic Bands. Tuscola has a music department of which to be proud.

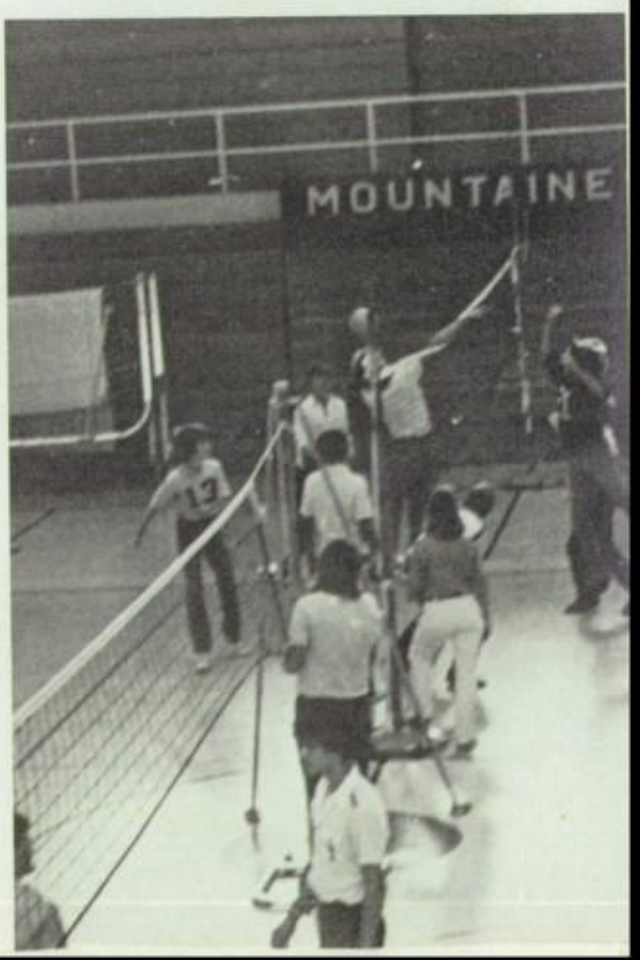

P.E. and Orientation

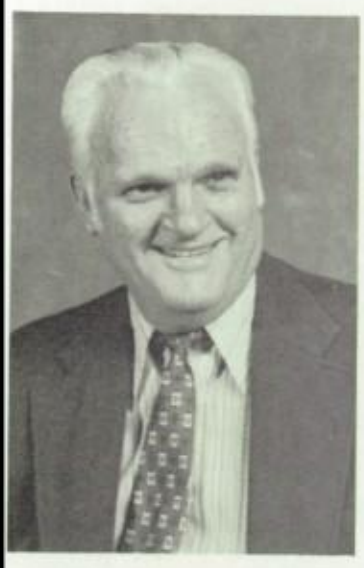

Tuscola's Physical Education department gives you many choices of physical education classes. You can take classes from team sports to modern dance. There is a wide selection from which to choose.

Sophomores are required to take orientation which includes such classes as business math and health.

JUNIORS

We, the Junior Class of Tuscola are very proud to represent such a fine class. To me, this is the greatest honor I have ever received, though at first I was scared. The rest of the officers came through beautifully. I owe all the credit to my fellow officers. Missy Ray, Desi Frady, and Eunice Brown are the backbones, brains, and beauty of the crew. I feel that this year will be lovely, for we have everything going for us. A beautiful campus, good teachers, and all of the best people in the world right here. Here we are stuck in the middle, the Junior Class of 1979.

Signed,

Delton Cullins

Karen,

I can't believe this year is over! We have had so much fun in P. E. & English. You are a great friend to have & I hope we will always be friends. Thanks for helping me out with all of my problems. Don't ever let anyone take advantage of you - you know who I am talking about. Be careful please because I don't want to see you get hurt. If you ever have a problem, don't hesitate to call me & if there is anything I can do, I'll try my best to do it.

Take care of yourself this summer & I hope we see each other someplace. I hope you get everything you want out of life because you deserve it! Stay just the way you are & remember me.

Love ya
Friends always,
Patty Pool

This year's annual has been a challenge for the entire annual staff. No one can possibly imagine the dedication and long hours that are required to make layouts and copy sheets into pages. Although we have had complications it has been our ambition to create a book that will capture the spirit of Tuscola and Tuscola students. I sincerely hope that we have portrayed some of the joys, sorrows, love, hate, anger and fright that goes along with being a student at Tuscola. In the future I hope that this year's annual is not forgotten, but cherished, not for the bad memories, but for the good memories. This is US, the class 1978-1979.

Co-editor,
Janice Swanger.

I'm back again think about what I said and call me sometime and go horseback Riding OR H-wheeling OR something just let me know when.

627-2896 Love Always.
OR
627-2429 Gene Mathis.

I know I'm supposed to tell you what the year was like for the Annual Staff, and, believe me, I really wonder where to start. So much has happened to the staff and to me.

We've had to face problems such as short help and late pictures. Not to mention our deadlines ereeping up on us, giving us only a few days, or worse yet, a few hours, to finish things.

We haven't had all bad times, however. Many of them were downright funny and taking time out to eat at the Pizza Hut didn't hurt our moral any!

I want to thank those staff members who worked the long hours to produce this annual. I would also like to thank Mr. Tinsley, for his non-stop griping and Mrs. Cagle and Mrs. Huguet for their patience with us. But most of all, I thank the students of Tuscola who made this annual, not only with their smiles and funny faces but with their tolerance while having their pictures taken or questions asked at the most inappropriate times.

Here is the Mountaineer. I hope it will be your memory of things to enjoy and cherish as it will be mine.

THANK YOU.
CO-EDITOR
LORI HOPFE.

Karen,

What ya doin? Well me, Jim in first period bored to death. Ha!

That sounds like our opening line everyday in those letters we wrote all year. We are crazy! You are one of my best friends. We have been good friends for a long time. We have changed alot lately though. We are growing up. Finally! Remember all the fun times we had at the beach and with Greg & Shan. Now that you & Jim aren't dating steady you can take Greg up on his invitation to come and stay with him at his trailer & party all summer. That would be wild as hell.

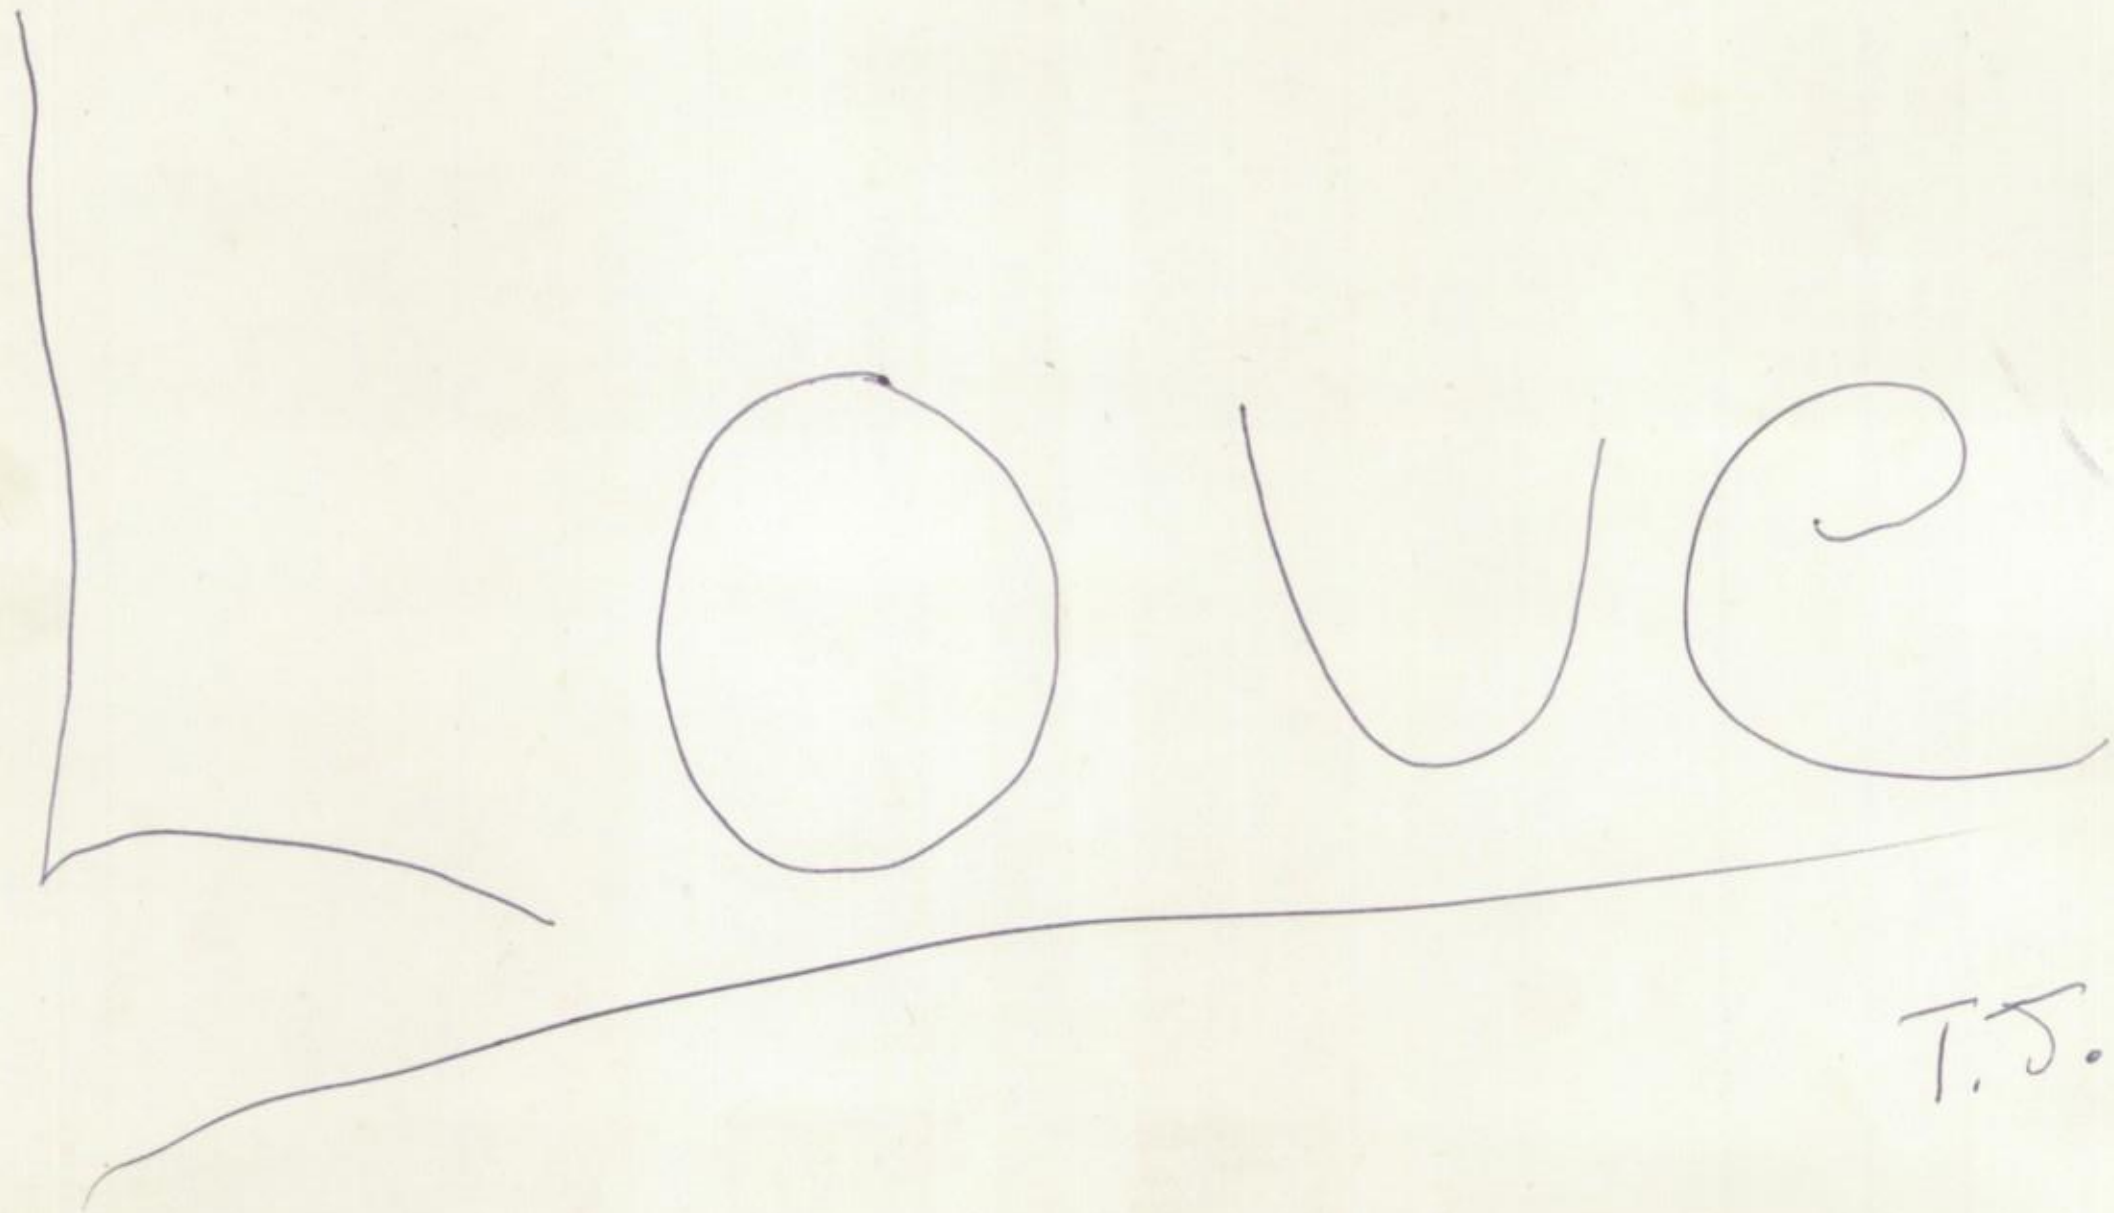

When Jim out of school & you and Leisa are up here, I will come & check you'll out. We will go get "blitzed." as usual. I hope your wanted date with Gene comes true. He is cute and he will treat you good. I know you love Jim alot but like you said you will get over it. Well, I'll write more later. Bye!

Jim back, but in red this time you will have to get your mom's car more often and we can go out & just get stoned. Karen stay as beautiful and smart as you are now and you will go far in life. Be good & stay out of trouble. Even as you go your own way in life, keep in touch. Please!

P.S. when Jim married & have one god ones, you can baby-sit.

Love ya, Angie

Karen thanks for this whole page for a big message

Karen, (Mom)
Well, what in the hell do I say to you? We've been friends for almost 12 years. I still remember when we were moderns in the first grade. I used to ride my training wheel bike to your house. How groovy! We've had some of the wildest times this year. Remember all the times that we partyed & you dropped that roach in my pocketbook and I just stopped in the road. When we went around Ingles and you almost fell out! That ugly boy we chased down and laid down in the car! You couldn't find me! That was wild! Remember all the times Gene and Kenneth wanted us to go camping. Hell, we're going next time. Except Mike Burnette is going! Hunt Old! Now, you are going out with Donnie McClure and I'm going with Kevin Cage. We will party all damn night! Gene is really good-looking and you better date him! You're a complete fool not to wear his ring like he wanted you to! CRAZY!
I always remember when we beat the shit out of each other in second grade! We were both in love with Maurice! I was going to marry him. Ha! Ha! Sky City and those teas and sashes. Groovy! Don't forget Shoo.... 66 g.d the fucking hell!!
Don't forget when we were messed-up and you fell over the flower pot into the kitchen! Miss Calhoun and your papers got lost. You walked in the desk! Remember when you got run over by that cart! You were injured.

Karen, you'll have to come and see me this summer O.K.! We will go out riding around or do something. You'd better keep in touch & call 452-4934. If you go to the beach, write me P.O. Box 546 or 304 Brown Ave. Haz. O.K.? I want to wish you all the luck in the world. I want to say again I'm glad we got to be good friends & We do have Angie to thank for that.
